

SRIJITA BISWAS

Kolkata, West Bengal, India – +91 8961369543 – srijitabiswas05@gmail.com

LinkedIn – GitHub – Portfolio

SKILLS & TOOLS

Technical Foundations:	C, C++, Java, Python, JavaScript, Data Structures & Algorithms (DSA)
Web Development:	React, Node.js, Express.js, Socket.io, Tailwind CSS
Databases:	MongoDB, MySQL
AI & Frameworks:	Scikit-learn, Streamlit
Tools & Design:	GitHub, VS Code, Figma, Canva

PROJECTS & EXPERIENCE

Bharat Academix CodeQuest Hackathon - MediFlow (AI Queue Management) May 2026 to Jun 2026

- Formulated and delivered a comprehensive hospital queue and appointment solution to optimize facility operations.
- Empowered over 100 healthcare professionals with efficient, centralized scheduling tools and digital administrative systems.
- Implemented live queue updates, interactive dashboards, and a Smart Decision Assistant utilizing Socket.io to drop patient scheduling bottlenecks by 20%.

SuperXgen AI Startup Buildathon - Glow-AI (Beauty Salon Marketplace) May 2026 to Jun 2026

- Built an AI powered beauty platform incorporating facial analysis capabilities and personalized style recommendation pipelines.
- Boosted overall platform user engagement metrics by 30% through data-driven matching systems.
- Constructed the responsive application frontend, location-based salon discovery interfaces, and smart recommendation layouts to optimize end-user workflow latency by 25%.

Product Design Trainee - Employability.life Dec 2025 to Jan 2026

- Managed end-to-end user research initiatives, mockups, interactive prototyping, and visual design assets.
- Translated target audience insights directly into user journeys to support strategic platform features.
- Designed LuxeStay, a dual-user platform, optimizing feature architecture and transaction workflows to scale user interaction by 25%.

Cloud Innovation Challenge - Frontend Developer – ZeroShield Mar 2026 to Apr 2026

- Developed 15+ modular, reusable frontend components following accessibility guidelines to drop rendering lag by 20%.
- Streamlined asset delivery pipelines to cut subsequent platform layout development time in half.
- Orchestrated product architecture, systematic user flows, and wireframes collaborating in a cross-functional squad to finish in the **Top 150 out of 1.4K+ international participants**.

Status Code 2.0 – Hackathon - Mobile Developer – SplitX Aug 2025

- Evolved a robust ledger engine handling multi user expense splits with real time state updates across 4 distinct transaction categories.
- Partnered in an agile development sprint to deliver a functional mobile prototype 4 hours ahead of schedule.
- Reduced interface errors by 15% through rigorous automated execution pipelines and unit test scripting.

EDUCATION

Sister Nivedita University, Kolkata Aug 2023 to Jul 2027
Bachelor of Technology in Computer Science Engineering Kolkata

CERTIFICATIONS

- **National Cloud Innovation Challenge:** National Finalist Rank 16 – 2026
- **Google:** UX Design Certificate – 2026
- **Employability.life:** X-Pro Certificate – 2026
- **UC Boulder:** Algorithms for Searching, Sorting, and Indexing – 2025
- **IBM:** Python for Data Science, AI & Development – 2025
- **Google Cloud:** Introduction to Generative AI – 2025
